# Gods of rome game guardian

PLAY GLADIATOR HEROES CLASH, one of the best fighting games and strategy (developers' words :)) Let's see something about the game. If you are interested, you can download it from this link (Gladiator Heroes for Android)Epic fighting & strategy game mode where the fighting clans will struggle to dominate the empire.Organize your fighting strategy by choosing the best weapons to carry out your attack. Incredible graphics that recreate challenging fighters and imposing coliseums, where you will have to fight and defeat your enemies. Enjoy PvP multiplayer events with unstoppable action against other fighters. Fight non-stop with the best strategy and tactics based on video game turns. Face your friends, choose your best fighter and win the fight. You can also build powerful alliances! Build the best city to supply, heal and tend to your army of fighters. Fights, blood, battles and strategy are mixed in this incredible fighting and strategy game that recreates the time of the great fighters of the Roman Empire such as Thor, god of war, or Xena, the warrior princess, regarded by many as the real gods of ancient Rome.Gladiator Heroes HackFirst out of it all, will need rooted Android phone and Game Guardian installed. If you don't have your phone rooted, you can install the Android emulator on your computer. Alongside this, you'll also need basic knowledge of GameGuardian – if you don't know how to use it, check out this tutorial (Android cheating game class). Start Gladiator Heroes, and click on the map. You should start seeing rewards: Open GameGuardian, open Gladiator Heroes process, and do a new search. Type must be DWORD. As you can see, in our case the reward is gold 1780, 890 wood and 3 diamonds. We want to edit diamonds, because it is premium currency Heroes.So Gladiator and our search will be 1780;890;3:512. 512 check how far in memory these values can be stored: you can leave it the same. GameGuardian will show you up to 100 values. Look again, but this time just look for number of gems – in our case 3. This step will show you all addresses which contain the value 3.Optional step: you can edit all values with incremental editing, in this case, you can find exactly the address which contains the value, edit only this value, and reverse the others. Edit all values to something like 99999999. After that, start and finish this mission. You will win 9999999 diamonds, which will allow you to upgrade your city to the highest level, and to buy all the heroes you want. Happy cheating.
